WHY REMOVE THAT STUMP?

DON'T LET A STUMP STUMP YOU.

That leftover stump is more than an eyesore. Here are the real reasons to have it professionally ground down and gone for good.

15 REASONS TO GRIND IT DOWN

TOP REASONS TO REMOVE YOUR STUMPS

- 1 Trip & Fall Hazard**
Easy to miss in tall grass — a real safety risk to family and guests.
- 2 Attracts Insects**
Decaying wood draws termites, carpenter ants, and beetles toward your home.
- 3 Fungus & Mold**
Rotting stumps breed mushrooms, fungi, and mold that spread to healthy plants.
- 4 Hard to Mow Around**
Forces awkward trimming and risks damaging your mower blades.
- 5 New Sprout Regrowth**
Many species send up fresh shoots — an endless battle with unwanted growth.
- 6 Hurts Curb Appeal**
Stumps are eyesores that drag down an otherwise tidy yard.
- 7 Lowers Property Value**
A clean, stump-free landscape is more attractive to buyers.
- 8 Wasted Yard Space**
Removal frees up room for new plantings, beds, patios, or play areas.
- 9 Spreading Roots**
Leftover roots keep growing and can crack sidewalks, drives, and pipes.
- 10 Liability Concerns**
If a visitor trips and is injured, you could be held responsible.
- 11 Equipment Damage**
Hidden stumps and roots wreck mowers, trimmers, and other tools.
- 12 Disease Prevention**
Diseased stumps harbor pathogens that infect nearby trees and shrubs.
- 13 Harbors Weeds**
Stumps collect debris and give weeds and invasive plants a foothold.
- 14 Shelters Pests**
Hollow, rotting stumps nest snakes, rodents, and other unwanted animals.
- 15 Faster Than DIY**
Professional grinding clears it below grade — no rentals, no backache.
